## Overview

Continental Equipment, started in 1978, is India's largest commercial food service equipment manufacturer and supplier.

Working with key customers and clients, Continental designed and developed foodservice solutions to cater to the requirements of the fast emerging foodservice industry in the country.

The company has since then thrived on the idea of improved designs, production facilities and customer service and it is because of these efforts that it can today pride itself on being the largest company supplying food service, bakery and beverage equipment to hotels, bakeries, coffee chains and restaurants in India.

In its endeavor to become a supply chain partner for leading food service organizations globally, the organization has set up operations all over the country and has also been involved in providing solutions to organizations in the USA, Middle East, Europe, Asia & Asia Pacific markets.

Continental is focused in the areas of Project and Key Accounts Management.

The projects executed in India and abroad, range from 4 & 5 star hotels to canteens, schools, ashrams, hospitals, specialty restaurants etc. While there is an exclusive team working on project execution, Continental can provide complete solution with fabricated, Refrigerated, Imported equipment and also COLD ROOMS.

Continental is approved supplier to McDonalds, KFC, Pizza Hut, Papa Johns, Sbarro, Yo China, Nirula's, Barista, Café coffee day, Costa and many other International and Indian QSRs. Continental provides them services in Equipment Design, Equipment fabrication, Imported and Indian equipment Distribution, Installation, Warranty, Service etc.

Continental also exports its products to the markets in Europe for which it has all the necessary certifications. It is a regular exporter to UK for some specialized items.

Continental also boasts of the largest network of service in the country with service centers in 14 different cities.

## Special Products

The Ultimate in Chapati Cooking

Energy Efficient - Very Low Gas Consumption - 1.25 Kg/hr

Easy to Operate

Labour Saving - Only One Operator

Space Saving - Floor Area 1.5Sq. Mtr.

Gas Chapati Machine - Rolls - Cooks - Puffs

Incorporates - Rolling Section - Cooking & Puffing Section -

Revolving Steel Plate Tawas - Delivery Conveyor - All in Compact Shape

Stainless Steel Construction - with Hinged Glass Doors - Full view of Operation

Mounted on heavy - duty Stainless Steel Legs with Stainless Steel Bullet Feet

We develop specialized products for many companies all over the globe. One such example is a kiosk made for a client in UK,.

The product is called Filling station and is shown below : **Filling Station**

*Potato Peeler*

The drum storage capacity is 10 kg. potatoes.

Voltage : 220V, Power Rating : 0.5 HP,

Height : 955 mm, Lid Dia. : 520 mm

Production : 100 Kg/h.

*Filling Station*

## Beverages

### Instant Hot Beverage Premixes

Continental India brings to the vending world a welcome innovation enabling vending operators to expand the portfolio and enhance the attractiveness of the offered drinks and coffee specialties, which is a precondition for satisfying customer's increasing demands.
