

A Right Choice For Professional Refrigeration

FROSTLINE

PRODUCT OF CONTINENTAL

Global Technology. Cool Solutions.

Frostline, a brand owned by Continental Group, brings to you International Quality Refrigerators using International Technology but Indian engineering to suit harsh conditions.

Frostline's plant, having automated European machines, produces vast range of products which are sold and installed all over India and various parts of the world including the Gulf, Africa and Asia.

Some of the most prominent features of FROSTLINE products are:

- Insulation PUF Injection System.
- Doors self closing and fitted with magnetic washable gasket.
- Doors are FLUSHED to avoid leakage.
- 60 mm thick insulation at very high density of 45 kg/cu mtr
- Monoblock, compact refrigeration system for reach ins
- Strong Structural Design
- Energy saving features and technology
- Hygiene friendly design
- European safety features
- Toughened & Vacuum Double walled Glass doors

The plant is situated at Chaupanki, Rajasthan, about 60 Km from Delhi. The plant houses state of the art Fabrication, Foaming and Refrigeration machinery and follows strict Quality control Systems and Processes using 5S techniques and ISO systems.

Frostline products are supported by strong service network of Continental that covers the entire country with centres in various locations.

Some of the customers using these products include:

Frostline - Chaupanki, Rajasthan

FROSTLINE

PRODUCT OF CONTINENTAL

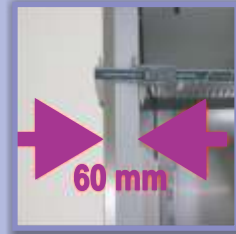

Reach in Chillers and Freezers

- Forced Draft Cooling
- Mono block unit
- CFC / HFC Free
- High Density Insulation ~45 kg /cu. Mtr
- SS Interior & Exterior
- Available in four capacities 500/700/1000/1400 Ltr.
- Doors with locks
- Removable & washable Gaskets
- SS / Plastic Coated Shelves
- 60mm thick Insulation with injection system
- Rounded Corners, Bottom etc.
- Toughened Double walled Glass Door
- SS legs with 50mm Dia/Castors are Optional
- R404a Refrigerant

Mono Block
Compact Refrigeration System

Insulation thickness 60
mm CFC & HCFC free.

Interior Stainless Steel AISI
304 Rounded corner
internal for easy cleaning

Wide magnetic gasket
gives effective seal and
is removable for easy cleaning

Tray slide adjustable at
60mm intervals

Completely removable
racking for easy cleaning

FROSTLINE

PRODUCT OF CONTINENTAL

Under Counter Chillers and Freezers

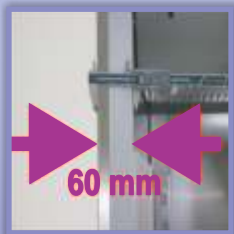

- Forced Draft Cooling
- 60mm thick Insulation with injection system
- CFC / HFC Free
- High Density Insulation ~45 kg /cu. Mtr
- SS Interior & Exterior
- Models with 2, 3 or 4 doors with locks
- Removable & washable Gaskets
- SS / Plastic Coated Shelves
- Drawers available as option
- Rounded Corners, Bottom etc.
- Toughened Double walled Glass Door
- SS legs with 50mm Dia/Castors are Optional
- R404a Refrigerant

Wide magnetic gasket gives effective seal and is removable for easy cleaning

Tray slide adjustable at 60mm intervals

Insulation thickness 60 mm CFC & HCFC free.

Drawer Unit

Pizza/Sandwich Prep Table

- Forced Draft Cooling
- 60mm thick Insulation with injection system
- CFC / HFC Free
- High Density Insulation ~45 kg /cu. Mtr
- SS Interior & Exterior
- Models with 2/3 doors with locks
- Removable & washable Gaskets
- SS GN Pan slides
- Rounded Corners, Bottom etc.
- Toughened Double walled Glass Door
- SS legs with 50mm Dia/Castors are Optional
- R404a Refrigerant

Stainless Steel interior.
Rounded corner internal for
easy cleaning

Dough-pan 600x400

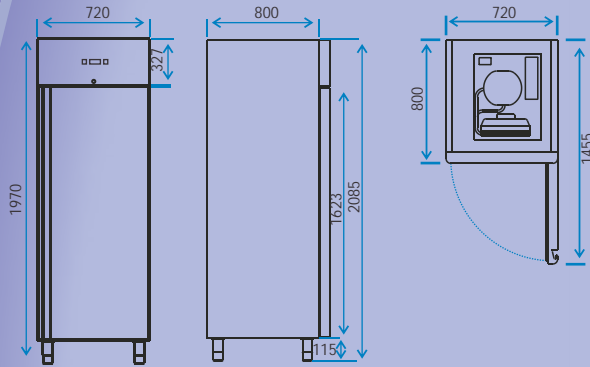

Evaporating unit is installed
inside Undercounter.
